CAL-TRON CORPORATION

Pioneering Plastic Solutions— since 1942

Cal-Tron Corporation maintains its world-class presence in the U.S. injection molding industry by adhering to time honored business principles.

UNCOMPROMISED QUALITY OF SERVICES

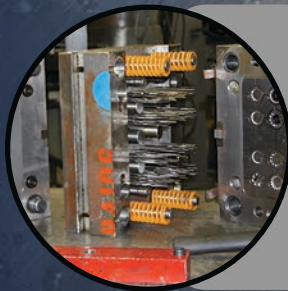

Detailed inspection and rigid quality control procedures assure compliance with both our customer's specifications and our ISO 9001:2008 certification. Every process is monitored, documented and analyzed by our Quality Department. They are actively involved throughout the process, from the initial stages of mold design to the production, packaging and shipment of the order. This enables us to maintain our commitment to excellence in manufacturing.

CUSTOMER SATISFACTION

Our staff is dedicated to complete customer service and support from initial design to production requirements. CTC is a specialist in solving difficult injection molding problems. That is why companies like Raytheon Missile Systems, Rockwell Collins, Northrop, Aerojet Rocketdyne, Eaton Corporation, Parker Hannifin and others have consistently awarded CTC their highest level of supplier recognition and vendor certification.

TIME EFFECTIVENESS IN PRODUCTION OF MANUFACTURED PARTS

CTC's onsite, full service machine shop offers cost effective solutions by limiting down time, thus permitting quick modifications and repairs to your tooling.

EXPERIENCE ACROSS INDUSTRIES

CTC supplies high quality, injection molded parts to a wide range of industries utilizing standard and high performance engineering resins, thermoplastic elastomers and thermoset materials.

- Defense
- Aerospace
- Consumer
- Transportation
